[Redacted]

Dear Mr. Kilcullen:

As I indicated in my letter of January 22, 1985, we advised the Central Intelligence Agency staff of your concerns about the new parking area you observed at the site of the proposed new CIA visitors center. We requested the Agency staff to advise us of the status of the construction project and their intent with respect to the visitors center area.

We have received a reply from the Agency indicating that the visitors center will be constructed in strict accordance with the plans approved by the Commission. A copy of the January 31 letter from [Redacted] Chief of the New Building Project Office, providing this assurance is enclosed for your information.

[Redacted] indicates that the parking area you observed represents an interim use of the area prior to the construction of the visitors center, which is expected to begin in midsummer.

We will continue to coordinate with the Agency staff and seek full compliance with the approved project plans, including all provisions for landscaping. Thank you for bringing this matter to our attention.

Sincerely,

*Reginald W. Griffith*
